<b>Data sources and processing</b>	<p>The investment universe is identified by the Investment Manager using company information (for example company website and sustainability reports) and third-party data (for example MSCI). At this time, our primary sustainability data provider is MSCI ESG. Organisations issuing these bonds will then be investigated by Greenbank’s ethical researchers.</p> <p>Issuers involved in any activities that fall into the categories outlined by the fund’s published negative criteria will not be considered for inclusion in the fund universe.</p>
<b>Limitations to methodologies and data</b>	<p>Where there are data gaps, the Sub-fund makes efforts where it aligns to the fund objective. This includes working with third parties and experts or making reasonable assumptions. Where we question third party data outputs, these issuers are subject to independent analysis and veto by Greenbank.</p>
<b>Due diligence</b>	<p>Our investment management teams apply environmental and social factor due diligence as part of their existing due diligence processes.</p> <p>The process covers company-wide exclusions, fund level exclusionary criteria, fund level positive inclusionary criteria including ongoing ethical committee approval and independent input from Greenbank’s ethical research team. Greenbank is the final arbiter on whether an investment is eligible for inclusion within our sustainable funds, through the use of both positive and negative screens. Greenbank can veto any investment which they believe does not meet our inclusionary or exclusionary criteria. This ensures all criteria are applied without bias or influence from our fund managers.</p> <p>More information can be found in the fund brochure on our website: <a href="https://www.rathbonefunds.com/international/financial-adviser/rathbone-sicav-ethical-bond-fund">https://www.rathbonefunds.com/international/financial-adviser/rathbone-sicav-ethical-bond-fund</a></p> <p>See <a href="#">Responsible Investment Policy</a> for more information.</p>
<b>Engagement policies</b>	<p>As the SICAV Ethical Bond Sub-fund is a corporate bond fund and voting rights do not usually attach to its underlying holdings, the fund itself does not have a formal engagement policy as part of its strategy. However, Greenbank’s ethical research team provides ethical screening services for the fund and regularly engages with companies on a variety of issues.</p> <p>A copy of our compliance with the UK Stewardship Code and our latest Stewardship Report is available at rathbonefunds.com.
