# A LETTER FROM THE MANAGERS

## A GENUINELY SUSTAINABLE RANGE OF FUNDS OFFERING TARGETED RETURNS AND A CHANCE TO MAKE A DIFFERENCE WITH YOUR INVESTMENTS

### Dear investor

Capitalism is one of the most powerful forces in society's arsenal, we would argue. It has lifted hundreds of millions of people out of poverty over the past 200 years. It's time for phase two.

We believe that you should not have to compromise on your personal values when you invest. That's why we have launched our Rathbone Greenbank Multi-Asset Portfolios; to ensure that every investor has an option to invest for their future while also trying to improve their future. We have joined forces with Greenbank, our dedicated sustainable investment unit. Greenbank has been building sustainable portfolios for more than 20 years and has worked with us to create an honest, clear and common sense process for ensuring our investments are helping make people better off – both investors and our wider communities.

Everything that goes in our portfolios is chosen by us. These funds are designed to deliver investor returns as well as hit sustainable goals. We will never forget that you are relying on your investment for your retirement, for your child's university fees, for your peace of mind. Because of this, the business case for all our investments must be just as compelling as the positive effects they will have on communities. However, Greenbank has a veto over the eligibility of each investment we make, to give you the assurance that doing the right thing isn't sidelined or green-washed in pursuit of financial gain.

With these funds we hope to make a difference to how companies are run, pushing them to be better than they were yesterday and holding them to account. There are many other investors out there who feel like we do – and you do – that capitalism is a positive force with the power to change our world for the better. All we need to do is use it the right way. All we need to do, is do the right thing.

Yours faithfully,

# RANGE INTRODUCTION

## OUR APPROACH AND OBJECTIVES

The Rathbone Greenbank Multi-Asset Portfolios are designed to enable investors to invest in line with both their financial objectives and their sustainable values – where they don't have to sacrifice their values for financial gain. The funds aim to deliver attractive risk-adjusted returns via a pragmatic and straight-forward investment approach, with sustainability being a central pillar of the process. The range seeks to provide investors with resilient and genuinely diversified range of funds.

## THE INVESTMENT APPROACH OFFERS INVESTORS:

### A transparent approach

providing a complete view of our approach to sustainable investing that allows investors easily to determine if it aligns with their values.

### Flexibility

a global and unconstrained approach to investing – the ability to act opportunistically to take advantage of areas of the market that can be harder to access.

### Daily managed and directly invested

the ability to act swiftly and benefit from tactical trade ideas and market dislocations, along with greater transparency for us and our investors on the risk we are taking.

### Proven expertise in sustainable investing

with a track record in ethical, sustainable and impact investing for over 20 years, Greenbank brings deep knowledge and robust analysis to the funds.

### Daily managed and directly invested

the ability to utilise a wide variety of means to manage risk and drawdowns in the fund, such as put options and currency hedging.

### Straight-forward fund construction

the ability, via our in-house Liquidity, Equity-type risk and Diversifiers (LED) risk-framework, to look at risk through a simpler lens and avoid unnecessarily complicated strategies; there is no black box here.

# OUR LED APPROACH

## INTRODUCING OUR LIQUIDITY, EQUITY-TYPE RISK AND DIVERSIFIERS (LED) FRAMEWORK

Recent history demonstrates how the unexpected happens frequently in financial markets. Our approach recognises that assets behave differently in different market conditions. Our LED risk framework supports a forward-looking approach to strategic asset allocation. By dividing asset classes into three distinct categories we are better able to control and manage risk.

<b>LIQUIDITY</b>	<b>Assets that can be sold easily, low credit risk but may carry interest rate and currency risk</b> <ul style="list-style-type: none"><li>- Cash</li><li>- Government bonds: conventional index linked UK and overseas</li><li>- High-quality investment grade (A+ and above)</li></ul>
<b>EQUITY-TYPE RISK</b>	<b>Equities and all assets highly correlated with equities</b> <ul style="list-style-type: none"><li>- Investment grade corporate bonds</li><li>- High yield bonds</li><li>- Equities (listed and private)</li><li>- REITs</li></ul>
<b>DIVERSIFIERS</b>	<b>Assets with diversification potential demonstrated by low correlation to equities</b> <ul style="list-style-type: none"><li>- Structured products: momentum and relative value</li><li>- Portfolio protection: put options and yield curve steepeners</li></ul>

# INTRODUCING GREENBANK

## EMPOWERING INVESTORS, CREATING POSITIVE IMPACT.

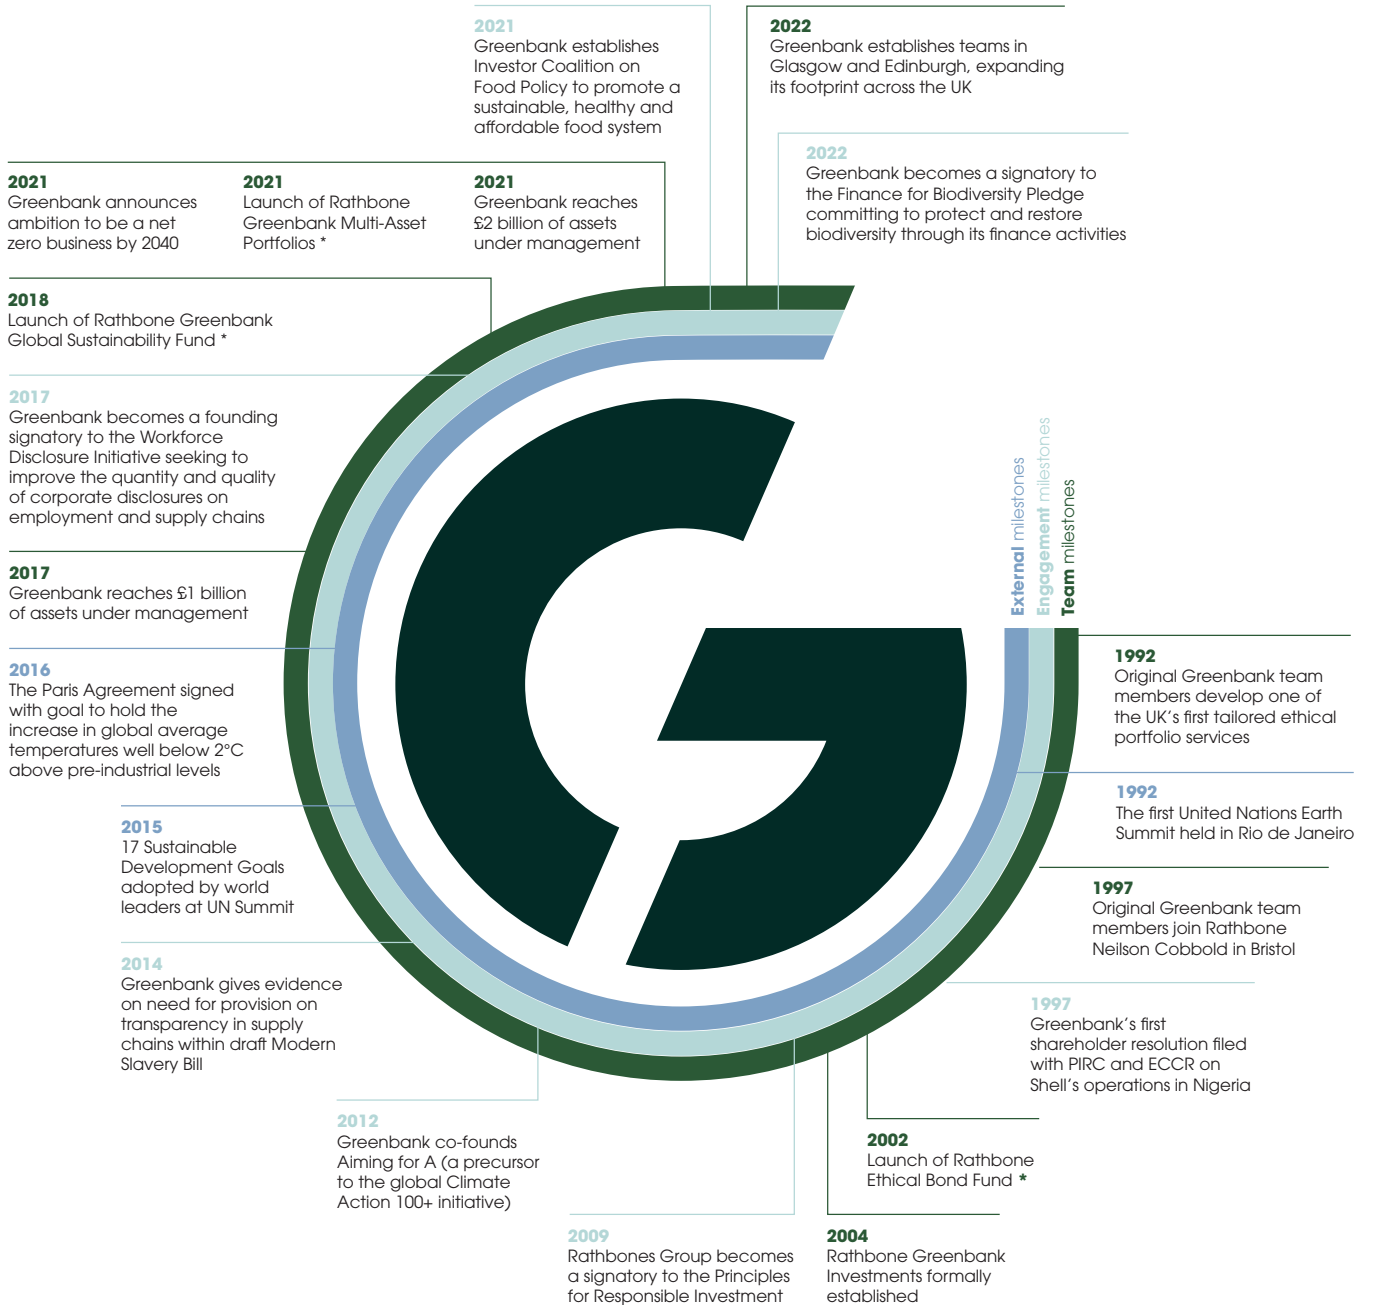

Greenbank Investments is the dedicated ethical, sustainable and impact investment unit of Rathbones. The team has been at the forefront of developments in the ethical, sustainable and impact investment industry for over 20 years, launching one of the UK's first bespoke ethical portfolio services. Greenbank offers a dedicated responsible investment service, applying social, environmental and ethical principles in the management and screening of client portfolios.

The team is passionate about sustainability issues and placing the principles of its clients and partners at the forefront of everything it does. It has been pushing for improvements in corporate sustainability through active engagement with companies on issues ranging from modern slavery to climate risk since its foundation.

Greenbank's ethical, sustainable and impact research team provides the Rathbone Greenbank Multi-Asset Portfolios with independent analysis into the sustainability credentials of the companies and entities in which they invest. Their proprietary database comprises environmental, social and governance (ESG) and sustainability profiles on companies, governments and other entities, enabling the team to ensure the funds only invest in approved entities that are aligned with sustainable development.

Greenbank is the final arbiter on whether an investment is eligible for inclusion within the funds; it also monitors fund holdings for their ongoing suitability in the event of changes in their core activities due to mergers, acquisitions and disposals or as they develop new ESG policies and practices.

# WHAT DOES SUSTAINABLE INVESTING MEAN TO US?

Sustainable investing has multiple definitions, so our aim is to be clear what it means to us. For us, sustainable investment is about long-term value creation for investors, society and the environment. It is our view that you should not have to compromise on your own personal values when you invest.

We believe it is possible to achieve long-term growth by investing in companies that conduct their business, and thereby apply capital,

in a responsible way. Corporate activity has an impact on society and the environment, and this type of investing takes these factors into consideration.

Therefore, sustainable funds take the following approaches:

- Integrating environmental, social and governance (ESG) factors into risk management and stewardship activities
- Following an exclusionary 'acting to avoid harm' investment policy
- Implementing a 'do good' investment policy.

**A force for good** – companies must display leading or well-developed business practices and policies, and/or allocate capital towards them in a way that supports sustainable development.

**Durable franchises** – investing in quality companies that have strong business models, robust risk management, sound financial metrics and an ability to evolve and remain relevant for the long term.

**Corporate culture** – only investing in companies that have good corporate governance, are managed in the interest of investors and stakeholders, and treat their employees well.

**Acting to avoid harm** – companies in the portfolio must pass through strict screening criteria, excluding organisations whose activities or operating practices hinder sustainable development.

**Responsible governments** – only lending to governments that respect human rights and civil liberties, are driving towards a greener economy and provide a range of public services.

# WHAT WE CAN OWN IN THE FUNDS

Investing in a sustainable manner can be more complex in multi-asset funds than traditional single-asset funds. Each asset class requires a separate process for assessing whether it meets the sustainable objectives of the fund.

We believe transparency is important in sustainable investing, so we have developed specific criteria that each asset must meet before it can be included in the funds.

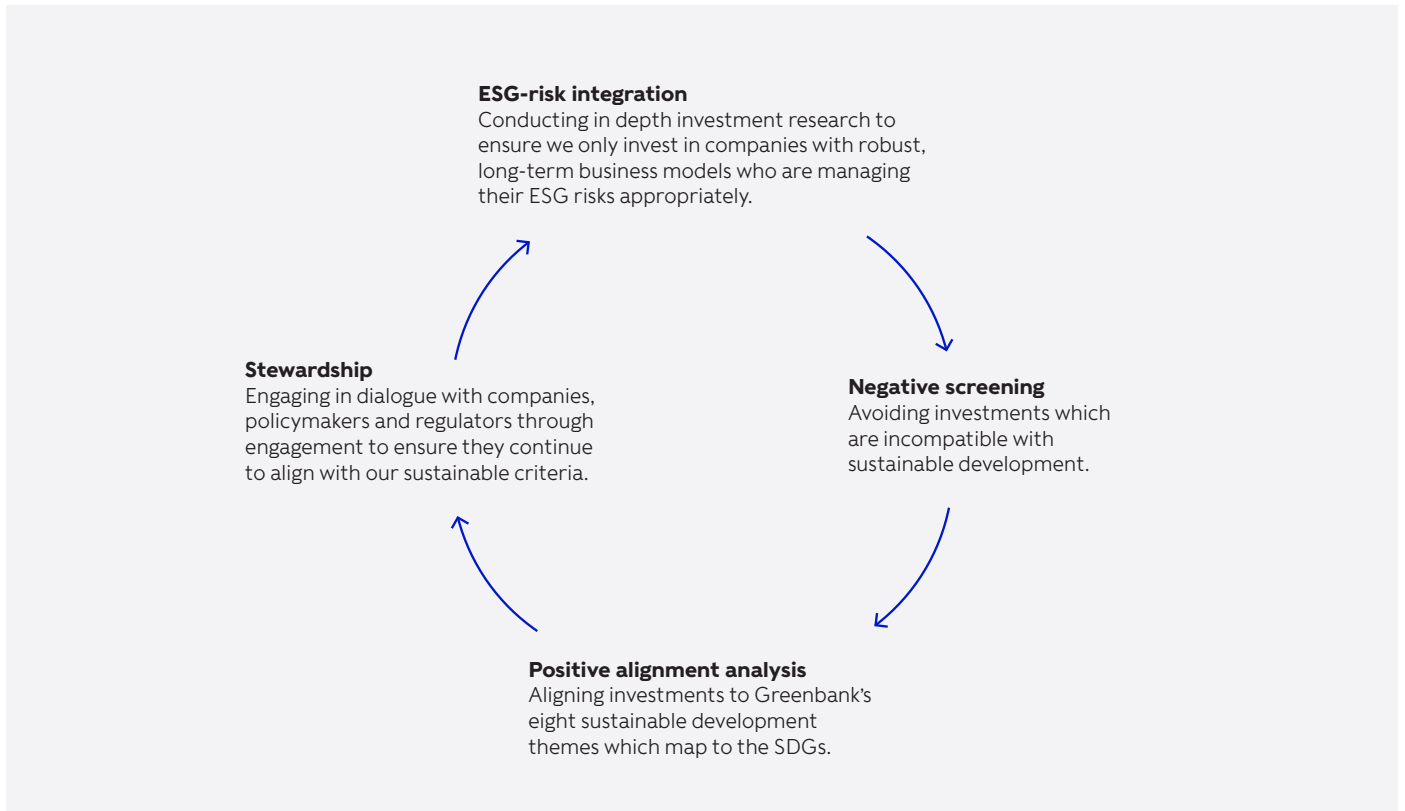

All potential investments are put forward by the fund managers, with the team at Greenbank then undertaking the necessary sustainability analysis and making the final decision about its eligibility for inclusion in the funds.

# INVESTMENT PROCESS SUMMARY

## THE FUNDS FOLLOW A FOUR-STEP INVESTMENT PROCESS COMBINING THE EXPERTISE OF RATHBONES ASSET MANAGEMENT AND GREENBANK

### HOW DO WE EVALUATE SUSTAINABILITY FOR THE FUNDS?

The fund's sustainability investment criteria are applied by Greenbank's research team. Potential investments in equities, corporate bonds and government bonds are assessed against a number of positive and negative top-level social and environmental criteria, comprising of more than 300 distinct sub-criteria.

Greenbank analyses the specific merits of a company or entity's individual activities in detail. The team pays specific attention to how companies address corporate responsibility issues, as well as the range of corporate responsibility issues covered and the quality of its response.

# THE EXCLUSIONS AND NEGATIVE SCREENS

## THE FUND USES A NEGATIVE SCREENING PROCESS TO AVOID INVESTING IN COMPANIES THAT CREATE SIGNIFICANT NEGATIVE IMPACTS THAT ARE CONSIDERED TO BE INCOMPATIBLE WITH SUSTAINABLE DEVELOPMENT

Therefore, the fund will exclude companies that are in breach of one or more of the following criteria:

Ethical issues	Criteria for exclusion
<b>Alcohol</b>	<b>The fund shall exclude companies:</b> <ul style="list-style-type: none"><li>– Deriving over 10% of revenue from the manufacture of alcoholic beverages.</li><li>– Deriving over 25% of revenue from the retail of alcoholic beverages.</li><li>– Involved in serious or repeated breaches of guidelines to prevent irresponsible marketing of alcohol or harmful drinking.</li></ul>

<b>Animal welfare violations: intensive livestock farming</b>	<b>The fund shall exclude companies:</b> <ul style="list-style-type: none"><li>– Rearing or processing animals for food and operating without evidence of policies, management and reporting on farm animal welfare violations.</li></ul>
<b>Armaments</b>	<b>The fund shall exclude companies:</b> <ul style="list-style-type: none"><li>– Deriving any revenue from the manufacture or sale of strategic weapons systems, munitions or combat platforms.</li></ul>
<b>Gambling</b>	<b>The fund shall exclude companies:</b> <ul style="list-style-type: none"><li>– Deriving over 5% of revenue from the operation of betting or gambling services (including casinos, betting shops, websites or mobile apps).</li></ul>
<b>Pornography</b>	<b>The fund shall exclude companies:</b> <ul style="list-style-type: none"><li>– Deriving any revenue from the production of sexually explicit material.</li><li>– Deriving over 5% of revenue from the distribution or sale of sexually explicit material.</li><li>– Failing to implement safeguards to prevent minors from accessing adult content.</li></ul>
<b>Tobacco</b>	<b>The fund shall exclude companies:</b> <ul style="list-style-type: none"><li>– Deriving any revenue from the manufacture of tobacco products.</li><li>– Deriving over 5% of revenue from the sale of tobacco products or the provision of specialist machinery or packaging to the tobacco industry.</li></ul>

Environmental issues	Criteria for exclusion
<b>Climate change</b>	<b>The fund shall exclude companies:</b> <ul style="list-style-type: none"> <li>– Operating oil and gas fields or thermal coal mines.</li> <li>– Operating in high-impact industries without evidence of a credible strategy to align their activities with a low-carbon transition.</li> </ul>
<b>Environment</b>	<b>The fund shall exclude companies:</b> <ul style="list-style-type: none"> <li>– Deriving any revenue from mining and mineral extraction.</li> <li>– Involved in serious or repeated pollution incidents and/or demonstrating a material failure to manage their environmental impacts.</li> <li>– Linked to widespread habitat destruction or serious and unabated impacts on biodiversity.</li> </ul>
<b>Nuclear power</b>	<b>The fund shall exclude companies:</b> <ul style="list-style-type: none"> <li>– Deriving any revenue from the construction of nuclear power plants.</li> <li>– Generating over 10% of their total electricity output from nuclear power.</li> <li>– Deriving over 5% of revenue from the supply of equipment or services to the nuclear power industry, unless related to safety or environmental management.</li> </ul>
Social issues	Criteria for exclusion
<b>Employment</b>	<b>The fund shall exclude companies:</b> <ul style="list-style-type: none"> <li>– Showing serious or repeated failings related to health and safety, labour relations or diversity and equal opportunities.</li> </ul>
<b>Human rights</b>	<b>The fund shall exclude companies:</b> <ul style="list-style-type: none"> <li>– Involved in serious or repeated breaches of international human rights standards, including direct use of child, forced or bonded labour.</li> <li>– Operating in high-risk locations without implementing appropriate controls for the management of potential human rights risks.</li> </ul>

# POSITIVE ALIGNMENT ANALYSIS

## IT IS NOT ENOUGH FOR COMPANIES TO ONLY DO NO HARM FOR OUR FUNDS

We want our companies to be actively doing good for the world around us by displaying strong environmental, social and governance policies and practices. This is because we believe companies that have these qualities are well-positioned to deliver long-term value creation for investors.

In order to qualify for inclusion in the funds, companies and entities that pass the negative screen must also display leading or well-developed business practices and policies, and/or allocate capital towards the provision of products or services aligned with sustainable development.

### Greenbank's eight sustainable development themes

				
	<p><b>Habitats and ecosystems</b></p>	<p><b>Resource efficiency</b></p>	<p><b>Decent work</b></p>	<p><b>Inclusive economies</b></p>
<p><b>Ambition for action</b></p>	<p>Preserve and enhance natural systems by encouraging companies to have a net positive impact on biodiversity.</p>	<p>Promote a circular economy that supports sustainable levels of consumption.</p>	<p>Ensure proper emphasis on the quality of jobs being created and maintained alongside their quantity.</p>	<p>Promote an equitable economy in which there is expanded opportunity for shared prosperity.</p>

In September 2015, the United Nations launched the Sustainable Development Goals (SDGs). These comprise of 17 goals, with 169 underlying targets that aim to 'end poverty, protect the planet and ensure prosperity for all' by 2030. The SDGs provide a comprehensive framework for international action on the many social and environmental challenges facing the world. Greenbank has mapped the SDGs to a set of eight sustainable development categories and a number of underlying sub-categories. These categories ultimately align with the same ambitions as the SDGs but focus on the areas most relevant to companies and investors. We use these to determine how successful individual companies are at translating aspirations into tangible results.

### Energy and climate

Support decarbonisation aligned to the goals of the Paris Agreement on climate change.

### Health and wellbeing

Ensure companies do not undermine the health of their beneficiaries and encourage improved health outcomes.

### Innovation and infrastructure

Support infrastructure that is fit to achieve broader planetary and societal goals.

### Resilient institutions

Strengthen well-functioning institutions that protect the rule of law and fundamental rights.

These figures refer to past performance, which isn't a reliable indicator of future performance. The value of investments and the income from them may go down as well as up and you may not get back your original investment.

<sup>^</sup>The ongoing charges figure (OCF) includes the annual management charge and all appropriate costs that may be deducted from the fund's assets, in line with current regulatory and industry guidance. Where appropriate, the OCF may include a synthetic element relating to the costs incurred in underlying collective investment undertakings, where permitted by the Prospectus. The OCF is included in the Annual or Interim report.

The use of derivatives for investment purposes may increase the volatility of a sub-fund's net asset value and may increase its risk profile.

Emerging markets are volatile and may suffer from liquidity problems. Changes in rates of exchange between currencies may cause the value of investments to decrease or increase.

Details of tax levels and reliefs may change in the future. The value of any tax relief depends on individual circumstances. If you have doubts about your tax position, or the suitability of this investment, you should seek professional advice.

As the Manager's annual fee is taken from capital, that capital may be eroded or growth restricted to the extent of the charge and that, while there may as a result be a reduction in liability for Capital Gains Tax, there will be some increase in Income Tax liability for tax paying shareholders.
